Interrupted Water Pressure

Dear Owner/ Resident,

Hereby we would like to inform you that we have received numerous complaints regarding the low water pressure within Burgundy Estate. The water pressure is a matter for the City of Cape Town to attend to.

We have logged a call with council and they have confirmed that they are going to carry out a task to have each and every complex's bulk water meter and water pressure tested.

Should you wish to follow up directly with the City of Cape Town, you can do so by dialing 086 010 3089, follow the voice prompts (1 , 0, 1) as they come up and provide the relevant reference number : 9108675285.

Kind Regards,

Marite Property Administrators
